

# DRAIN CLEANER

## Drain cleaner for pipes and traps

### ■ PROPERTIES

Drain liquid with effective action, in concentrated form.

Dissolves within a few minutes soap residues, bristles and organic fats from the sewer pipes, keeping them clean.

It does not damage stainless steel sinks and metal traps made of copper, lead, polyethylene and PVC. Its periodic use reduces the unpleasant odors that come from residues on the walls of the pipes.

### ■ ADVANTAGES

- It does not cause fumes.
- It does not blacken the drain grille.
- It does not create stains in contact with nickel valves, sink or bathtub.
- It does not damage the piping.
- Eliminates mechanical means (plungers, plumbing snakes etc.).

### ■ APPLICATIONS

DUROSTICK DRAIN CLEANER is necessary for drain systems of houses, restaurants, hotels, hospitals, factories, etc. Used in sinks, bathtubs, showers, sinks, floor drains.

### ■ USE

**Application preparation:** After wearing plastic gloves and goggles, hold and secure the container in a vertical position. Then press the special safety cap, turning it to open it.

**Application:** Remove as much standing water as possible (if any) of the sink or washbasin. Empty approximately 500-1.000ml for immediate unclogging of blocked drains and pipes, and half the amount for maintenance (periodic use). Allow for it to act for approximately 20 minutes and let plenty of hot water to flow. It is recommended that the room is ventilated, due to odors produced during use.

The technical specifications and directions of use contained in this technical data sheet are the results of the knowledge and experience of the company's research and development department, as well as from the real-life applications of the product. The recommendations and suggestions regarding the use of the products are made without guarantee since the respective conditions during their application are beyond the control of the company. For this reason, it is the user's responsibility to make sure that the product is suitable for the intended application as well as the application conditions of the project.

### ■ HELPFUL TIPS - NOTES

- The instructions for use and precaution stated on the package must be followed carefully.
- Do not use in combination with other products.

### ■ CONSUMPTION

500-1.000ml, depending on pipe diameter and the amount of accumulated waste.

### ■ STORAGE

Store in shaded places, away from any heat source, for 24 months from production date.

### ■ SAFETY DIRECTIONS

The product is classified as corrosive. It is recommended to keep it locked, away from the reach of children and apply it in well ventilated areas. Before use, refer to the cautions on the product's package or the Safety Data Sheet.

### ■ PACKAGING

Carton box with 15 pcs of 500ml (750gr) each one  
Carton box with 15 pcs of 1.000ml (1.500gr) each one.

TECHNICAL SPECIFICATIONS	
■ Form - Color	Condensed liquid - Transparent
■ pH	>13
■ Odour	Light
■ Oxidizing properties	No
■ Volatile organics	Does not contain any
■ Solubility in water	100%
